Kelly made the job look easy, but it is not. She registered over 25,000 dancers so far during her tenure on the National Registrar Committee. She has done so with very little fanfare. What truly makes her an exceptional registrar is she always has the dancers' best interest at heart. If a registration came in late, she would go out of her way to get the registration card promptly processed so the dancer could compete. She would do so with nary a protest or complain about putting in extra work.

It has been a joy to work with Kelly over the years; her humour and work ethic was so appreciated. She knew the job and rules better than anyone. She was the registrar I would turn to, to discuss situations that arose as I so valued her opinion.

ScotDance Ontario would like to recognize Kelly's extraordinary work on this national committee.
